Part 1. The Center Motif (Front Piece)

For the first part; we are going to create the center of the front piece which consists of 25 medallions that are joined together as we go.

We suggest that you cut the thread after finishing each round 4 (on all rows) and close with an invisible join to the second stitch for the neatest finish. To save yarn; this pattern is written as without cutting the thread between each round up until the final one, making the most of every scarp you have left.

Note! The first medallion is worked in color F.

To begin:
    make a magic circle, ch1 and make 8 sc, close with a slst in the first sc
